

# "2005 NEED State of the Year" TENNESSEE

Tennessee has been selected the 2005 NEED State of the Year because of the efforts of the Tennessee Energy Education Network, a program in the Energy Division. TEEN is the state coordinator of the National Energy Education Development Program and was selected from 35 states for this recognition.

## 2005 National & State NEED WINNERS

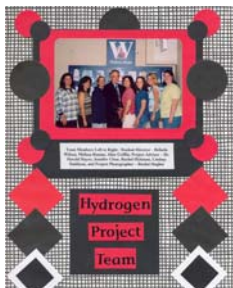

### National Primary School & State Primary School of the Year

Huntingdon Elementary School- Huntingdon  
Project Advisor: Connie bond  
Student Director: Micah Bullock  
Project Goals:  
The "Wiser Misers" explored energy sources, taught others about energy and conservation, learned how to be leaders in their school and community.

### National Special Caterory & State Special Category of the Year

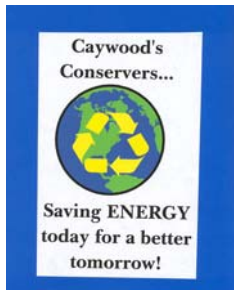

Walters State Community College - Greeneville  
Project Advisor: Dr. Harold Hayes  
Student Director: Belinda R. Wilson  
Project Goals:  
Their purpose was to support the use of alternative fuel sources, especially hydrogen power. Using miniature functional models of solar powered and hydrogen fuel celled cars, educational demonstrations were given at various schools.
